Please keep this page. It will be used again in week 3.

Orange Card

Hold the **Orange Card** about 30cm from your child's face and have them stare at the blue dot for 15 seconds.

Put the card down and have your child close their eyes. With their eyes closed say: **"You can see a blue circle. You can see the blue circle clearly. Now, let's count backwards from three and open our eyes. Three, two, one, open your eyes."** Once your child has opened their eyes, ask them if they saw the blue circle.

If it's hard for your child to close their eyes, help your child to cover their eyes with their hands. Please also make sure to ask **"Did you see the blue dot?"** not **"What colour dot did you see?"**
